

Lecturer/Senior Lecturer in Veterinary Anatomy

Camden, North London

c.£40.2K - £57.5K pa inclusive

We are looking for two enthusiastic anatomists to develop, and where appropriate, lead innovative teaching initiatives on our integrated, systems-based curriculum of the first and second year BVetMed programme, our accelerated year for graduates and our BSc (Bioveterinary Sciences).

Your primary responsibility will be the teaching of functional anatomy and other basic sciences of domestic species and the development of new teaching resources in collaboration with the College's specialist educational unit (LIVE Centre).

You will also have some administrative and management responsibility in respect of curriculum and facilities planning.

You should have a basic science, biomedical, veterinary or medical degree, excellent dissection skills and previous teaching experience.

We offer a generous reward package including a final salary pension scheme.

For further information and to apply online, please visit our website www.rvc.ac.uk
Reference number: VBS/0119A/09.

Closing date: 7th February 2010.

Interviews are likely to be held on 2nd March 2010.
